## AVAILABLE COLOURS

## SIZES

We have a wide variety of sizes, shapes and finishes available. Please speak to one of our sales consultants for more details.

## RECOMMENDED APPLICATIONS

This product is suited for both interior and exterior use.

As this is a natural product, one can expect slight colour variations between batches. Please arrange a product preview, either by photograph, or at one of our distribution centres in order to view the current stock.

## PRODUCT CARE AND MAINTENANCE

The product is supplied pre-sealed for protection against staining. For everyday maintenance we recommend the use of Stone Shield Daily Clean or a neutral pH detergent. Do not use acid or alkaline detergents as repeated application will damage the sealer, leaving the stone unprotected.

The colours shown on this spec sheet are as exact as photographic and printing processes as well as screen resolution allow. We recommend that all colours are chosen from actual product samples available on request.
